kirillpimenov.ru

Front-end developer with experience in building modern, responsive and accessible websites and applications.

WORK EXPERIENCE

Freelance Front-End Developer

September 2023 – Present

- **Developing and launching adaptive websites** for individual clients and small businesses.
- Optimizing website **performance** and **accessibility**, ensuring cross-browser and platform compatibility.
- **Full development cycle:** from engineering and design to deployment and support.

EDUCATION

«Pitirim Sorokin Syktyvkar State University», Syktyvkar – *Bachelor's degree*

September 2017 – July 2021

Bachelor's Degree Program «Applied Mathematics and Computer Science».

PROJECTS

Personal Website *– kirillpimenov.ru*

Designed and developed a personal website using **Next.js**, **TypeScript**, and **Tailwind CSS**.

Digital E-commerce Website *– welins.ru*

Created a digital e-commerce website using modern front-end technologies. Built with **Next.js**, **Prisma**, **YooKassa** for payments, and **Tailwind CSS**.

Dry Cleaning Company Website *– lysva.vercel.app*

Developed a responsive website for a local cleaning service using **React** and **CSS**.

Full-Stack application *– in development*

Implemented backend on **NestJS** using **WebSocket.** Frontend on **Next.js** with **socket.io** integration for instant data update. Configured user authentication and authorization via **JWT tokens** (backend) and **Auth.js** (front-end).
